our GitHub repository

1. A fantastic reference for exploring ggplot chart types is available under "chart types" here: https://www.r-graph-gallery.com/ggplot2-package.html
2. For the full suite of theme() customization options, check out https://ggplot2.tidyverse.org/reference/theme.html
3. A full list of ggpubr functions is available here: http://rpkgs.datanovia.com/ggpubr/reference/index.html
4. Check out all the ggsci palette options here: https://nanx.me/ggsci/articles/ggsci.html
5. Some other cool color packages include: viridis, dichromat, ggthemes, ghibli, wesanderson, pals, and rcartocolor
